Profile

I am a Frontend Developer with a background in Business Management. I have several years of experience in frontend development and possess a strong skillset that includes **Git/Github/Gitlab, HTML5, CSS/SASS, Typescript/Javascript/JQuery, API/CRUD, SocketIO/Websockets, MongoDB/Mongoose/Firebase, PostgreSQL/MySQL, NodeJS/ExpressJS/NestJS**, **ReactJS/NextJS,** Webpack/Gulp/Vite, Docker/Docker Compose/Deployment, and **Jest** for unit-testing. I am passionate about creating user-friendly interfaces and am always eager to learn and adapt to new technologies in the ever-evolving world of web development.

Employment

Jul 2024 - Present

Software Engineer
Brilliant, Israel, Tel Aviv (Remote)
Worked in a collaborative team environment to develop *Brilliant*, a large-scale CRM and event management system using the MERN stack. Contributed to both frontend and backend, implementing state management with Redux and React Query, building responsive UI with Chakra UI, and developing real-time features like live messaging, notifications, and cron jobs. Focused on performance, scalability, and AI-powered automation to enhance user experience.

Aug 2021 - May 2023

Frontend Developer
Lime Consulting, Ukraine, Kyiv (Remote)
Managed projects that primarily required simple HTML, SASS, and JavaScript for UI development. Utilized React and Next.js for more complex projects, ensuring dynamic and interactive user interfaces. Focused on building UIs specifically tailored for gambling websites, adhering to industry standards. Delivered high-quality, responsive designs that enhanced user engagement on various platforms.

Apr 2020 - Aug 2021

Frontend Developer
Smartweb, Tbilisi
Developed over 50 pixel-perfect UIs using HTML, SASS, and JavaScript. Ensured consistent design quality across multiple websites by adhering to pixel-perfect standards. Implemented responsive layouts and seamless user experiences across various devices. Leveraged SASS to efficiently manage and maintain the styling of complex websites.

May 2022 - Present	**Fullstack Developer**
	Freelance, Georgia, Tbilisi + Remote
	Developed frontend applications using React or native JavaScript, delivering responsive and interactive user interfaces. Built full-stack applications using the MERN (MongoDB, Express, React, Node.js) or PERN (PostgreSQL, Express, React, Node.js) stack. Integrated backend services with frontend components to create seamless, end-to-end web solutions.

Education

Sep 2018 - Jun 2021	**Business Management**
	Ilia State University, Tbilisi
Sep 2016 - May 2018	**Philosophy**
	Ilia State University, Tbilisi
	After studying philosophy for two years, I developed an interest in economics and switched faculties.

Certificates

Feb 2020	**Smart Academy - Front-End Development Course**
	A(90+ out of 100)
Nov 2021	**Smart Academy - ReactJS Course**
	A(90+ out of 100)
